COMMISSION MERCHANTS.
THE undersigned, having this day entered into a copartnership under the firm of BROWN & LARKIN, in the Red Warehouse at the foot of East Water street, near Walker's Point Bridge, would announce to their numerous friends and customers, that they are now doubly prepared to serve them promptly and efficiently, in every branch of their business.
Particular attention will be given to PURCHASING and SHIPPING WHEAT and other Produce for dealers in this market; also, to Storing Wheat for Merchants and Farmers, on the most favorable terms.
The business of Receiving and Forwarding Merchandize for Merchants and others, in the city and country, is particularly solicited, to which careful and prompt attention will at all times be given.
In disposing of Property entrusted to us to be sold on Commission, our effort will be to obtain the best price in the market, and make quick and accurate returns for the same.

Refer to L. J. Higby, Thomas P. Williams, and Kellogg, Strong & Co., Milwaukee.
THE undersigned would respectfully solicit the attention of dealers in and consumers of Coal in Milwaukee to our Card, as above. The Bolivar Coal is unquestionably superior to any other mined in Ohio, for Grate, Blacksmithing, Machinery, or Domestic purposes; and for Steam purposes, is superior to any except Briar Hill. It is peculiarly well adapted to Shipping, as its extreme hardness renders it capable of bearing any amount of handling, without waste. It can be afforded considerably cheaper than Brier Hill, and for most purposes, is better.
It is our wish to introduce the article, and we respectfully solicit orders, confident that a trial is only necessary to convince any of the truth of the above assertion.

The proprietors of the Eckford Line would particularly call the attention of the Merchants of Wisconsin, Illinois, and other Western and South-western States to the superior facilities of their line for transportation to, and from, the ports on the Upper Lakes. The above line of Steamboats runs direct to our Dock, at Buffalo, and all goods contracted by this line for the Upper Lakes will be shipped (unless otherwise ordered or contracted) by *Steamboats,* (not Propellers) with but one, or possibly two exceptions. The Eckford is the only Line not interested in, or committed to, a Propeller Upper Lake Line; and in endeavoring to sustain a line of *Steamboats* on that route, the Proprietors hope to receive the support and patronage of the Merchants of the Western States, when interest demands the continuance of a line of such a class of Boats. EMPIRE
INSURANCE COMPANY,
Union Springs, N. Y.
CAPITAL..........$100,000.
THE Directors of the Empire Insurance Company feel confident that the plan of insurance adopted by them will meet with a hearty response from a discerning public. Our Charter and By-Laws require that the applications received shall be divided into two or more classes. Dwelling Houses, and property of similar hazard, only, can be insured in the First Class, excluding Taverns, Work-shops, School-houses, Seminaries, Churches, and other kinds of hazardous property, usually taken in the so-called "Farmers' Companies," or "Farmers' Departments." This will render the EMPIRE emphatically a "FARMERS' COMPANY."
They submit for the Judgment of their fellow citizens the following summary of their plan of operations:
1. Policies will be divided into distinct Classes, the funds of each class being kept separate, and each paying its own losses. The notes given in one Class are not liable for losses happening in the other.
2. Any applicant may, at his option, pay a definite sum in full for his insurance, in lieu of giving his note.
3. The First Class to consist of dwelling houses and other farm buildings and personal property therein. Not more than two-thirds of the value of any building to be insured; but the personal property therein may be insured to its cash value.
4. The Second Class to consist of Churches, School-houses, Seminary buildings, Work-shops, Taverns, Stores, Mills propelled by water power, &c., and personal property therein.
5. Not more than $3000 will be taken in one risk.
6. Steam Mills of all kinds, Distilleries, Cotton and Woolen Factories, Powder and Oil Mills, Furnaces, Machine Shops, and other extra hazardous property will not be taken in this company.
7. This Company will hold itself responsible for the correctness of all surveys and other official acts of its authorized agents, thus ending all cavil as to the technical correctness of surveys, and the consequent liability of the Company.
8. Any policy-holder may at pleasure withdraw from the Company by paying his share of the losses up to the time of such withdrawal.
9. This Company will adjust all claims with promptness and liberality, and if at any time a difference shall arise between the parties, the same may be settled by a mutual reference in the county where the loss shall have occurred.
10. Additional Stoves may be set up, or moved from one room to another, without giving notice to the Company; also, such repairs as do not increase the hazard of the property, need not be notified.
11. This Company will pay losses caused by lightning, whether the buildings are burned or otherwise damaged.
12. Should any more money be collected than sufficient to keep the company in a sound condition, it will be returned to the policy holders in proportion as each shall have paid in.
The Directors, in soliciting patronage for the *Empire Insurance Company,* do so in the firm conviction that the plan will be found as CHEAP and SAFE as any company can be made. In arranging their Rates of Hazard, and the kinds of property to be insured in each class, they have sought to secure sufficient cash premiums to meet all losses; by using the small notes taken as a Reserve Fund, which shall render the Company perfectly safe against all contingencies.
For a more definite and full view of their plan of operations, they respectfully invite an examination of their Rates of Hazard and Classification of Property to be insured.

Union Springs, N. Y.
THIS Association is formed for the mutual relief of its members in case of sickness or accident. A careful examination of its principles, and its beneficent objects, is respectfully solicited. The character and standing of the Board of Directors is a guaranty that the money received will be safely preserved, and faithfully devoted to the objects proposed. The progress of HEALTH INSURANCE, within the past few years, in localities where its principles have been understood, and its beneficent results practically seen and felt, is unparalleled.
Men are literally binding themselves together to bear one another's burdens. No kind of Insurance can be so generally useful as that of Health; for most people are dependent upon it as the capital which enables them to procure the means of livelihood. Hence, when by disease or accident this is gone, all is gone; and either an unpleasant dependence on friends, or poverty and pauperism, is the consequence. It is not presumed that accident or the ravages of disease can be prevented; but by a wise forethought, a fountain may be provided, which, when the hand of affliction does come, will soften its asperities, and secure a comfortable support for yourself or family.
Conditions of Membership.
A CERTIFICATE OF MEMBERSHIP will be forwarded on payment of $1,50 Admission Fee, and the first annual deposit mentioned below. Each member will be entitled to a Weekly Benefit during the time disabled by sickness or accident from attending to his ordinary business or occupation. THIS Company offers unrivalled facilities for the insurance of Buildings and Personal Property against fire. The advantages offered, are security beyond the reach of circumstances, as the real estate insured is by law bound for the assessment made to cover losses beyond the power of evasion. Every person insured is a member of the Company, and entitled to one vote. The cost of insurance does not exceed one-third as much as in Stock Companies, saying nothing of the increased security and the incomparable ease with which losses are settled. During the last five years, this Company have issued 2600 Policies, and made but three assessments at a cost to the property insured, not exceeding two mills on the dollar. Its business is principally confined to this State.

VOLUME VIII. MILWAUKEE DAILY SENTINEL. NEW SERIES.

Milwaukee Daily Sentinel.

TUESDAY MORNING, JUNE 22, 1852.

Rufus King, Wm. H. Watson & John. S. Fillmore PROPRIETORS.
UNDER THE NAME AND FIRM OF
RUFUS KING & CO.

WHIG NOMINATIONS.

For President,
WINFIELD SCOTT
OF NEW JERSEY.

For Vice President,
WILLIAM A. GRAHAM,
OF NORTH CAROLINA.

THE NOMINATIONS.

Long before we sit down to write a few words concerning the nominations made by the Whigs assembled in Council at Baltimore, the names of the candidates have gone upon the wings of lightning to almost every city, town and hamlet in the land. We need not stop here to express our gratification at the result of the protracted balloting at Baltimore. From the first, we have unhesitatingly expressed our preference for General Winfield Scott, as the man for the crisis. We knew him as an earnest, straightforward Whig, and we believed him to be the leader under whose banner the Whig host could most surely march to a victory.

Neither need we occupy any great space in informing our readers "who Gen. Scott is." The people can all spell his name—they have known it by heart for 40 years. They know him for his splendid military career—they have marked him as the first soldier of the age. But this not only; on every occasion when his civil abilities have been called into requisition, they have not found him wanting. In camp and in council, he has been alike pre-eminent. They have seen him preserve through a long life, an unsullied honesty of character—they have watched his unwavering fidelity to the Constitution. True always, with a soldier's devotion, to the flag of his country, he has not forgotten to be true to himself—Conscious of the rectitude of his principles and purposes, he has refused to give any pledges as to his future conduct, to secure a nomination. To all he has answered:

"I have no platform but that of my life and character—I have no promises with which to delude my country—I have no assurances to give but the assurances of my reputation. I am known. What I have been, and what I am, is known, and upon that knowledge I stand with my country and before my countrymen, and the rest is theirs."

Winfield Scott is known to the people, and they will take him for what he is. Much as his enemies will venture of calumny and detraction upon the head of the gallant old patriot soldier, the people see his life-history plain before them in letters of living light. He never lost a battle—his very name is a presage of victory—and he will not, cannot lose in the bloodless, but important contest for the welfare of our country, into which his unstained banner leads us, and which is just at hand. His fame is now enough to satisfy the ambition of any man, his monument high enough if nothing be added. But the people of the United States, grateful for his past, and hopeful for his future, have resolved to place another stone upon the pinnacle of his fame, and the broad and solid foundation is strong enough to bear it.

Our opponents are already beaten in the nominations. Whigs of Wisconsin! stand ready for a glorious ratification of this first triumph, in November next!

For Vice President, the Convention has nominated Hon. William A. Graham, of North Carolina, a live Whig of that old State, which never falters in a Presidential canvass—a compliment richly due to the old North State, and a nomination which must commend itself to every true Whig in the Union. Mr. Graham is the present Secretary of the Navy, has long served his State with great credit in the National Councils, and is not identified with the quarrels which have of late tended to distract the party. He is "every inch a man."

THE PLATFORM.

We do not yet get the resolutions adopted at the Whig National Convention, in full. Enough, however, has reached us, to show that the representatives of the Whigs of the nation have reaffirmed their attachment to the principle of protection to Home Industry, and the *right* and *duty* of Government to appropriate liberally to necessary works of Internal Improvement, Rivers and Harbors &c. On the old Whig ground we all stand together again. Under the pressure of the unanimous vote from the South, aided by many from the North, the Convention has also added another supernumerary plank to the platform, for the accomodation of such as choose to stand upon it. As the resolution referred to was given to the committee, it required some alteration, before it could be reported with any degree of unanimity. We give this finality resolution below, the part in italics showing the most material amendment made by the committee:

Resolved, That the series of acts of the 31st Congress, known as the Compromise, the Fugitive Slave Law included, be acquiesced in by the Whig party of the United States, as a settlement in principle and substance of the dangerous and exciting questions which they embrace, and so far as they are concerned, we will maintain them and insist upon their enforcement, until time and experience shall demonstrate the necessity of further legislation—to guard against the evasion of the law on one one hand, *and the abuse of their power on the other*, not impairing their present efficiency, and we deprecate all further agitation of the question thus settled, as dangerous to our peace, and will discountenance all efforts to continue or resume such agitation, whenever, wherever or however the attempt be made, and we will maintain this system as essential to the nationality of the whig party, and the integrity of the Union.

We don't suppose that any one need be alarmed at the passage of *that* resolution. It is a good deal more northern than we expected, under all the circumstances; and will stand in the way of no person who cares to do his duty. There is scarcely one true whig at the north who cares to "agitate" the vexed subject, unless "time and experience demonstrates the necessity" of so doing, in order to "guard against the abuse" of the law mentioned. We have not for a long time thought the time propitious for any such continued agitation. When we make up our minds that the time has come for doing any good in that manner, no extra planks will stand in the way.

Meantime, we battle for Winfield Scott and the interests of the teeming West.

Senator King.—Although the "democratic" candidate for the Vice Presidency has been before the people for three weeks or thereabouts, the papers in his interest have thus far been unable to ascertain any particular claims or qualifications which he possesses for the second office in the gift of the people, except that he is "a gentleman, who has offended nobody." His inoffensiveness is a matter of taste, so far as Freesoilers are concerned, but his general position brings forcibly to mind the following anecdote:

A lady once asked the eccentric John Randolph what he thought of Mr. King of Alabama. And he replied:
Mr. King? Why, madam, Mr. King is—is—in fact, madam, Mr. King wears the handsomest pair of boots in Washington."

Quick.—The steamer *Northern Indiana* made the trip lately from Monroe to Buffalo in 15 hours 15 minutes, making her usual stop at Dunkirk.

City Matters.

Waugh's Panorama of Italy.

By the politeness of Mr. Jones, who has charge of the Panorama which opens to-night at Gardiner's Hall, we were allowed to see the first section run off yesterday morning. We had heard so much of this painting that we wished to satisfy ourselves of its merits, before recommending it to the patronage of our citizens. Of course, broad daylight is no light in which to judge of a Panorama intended to be shown by artificial light—yet the fact that under such circumstances it altogether exceeded our expectations, is decidedly in its favor. The scenes shown in the first section are the following:

Lake Maggiore, lying in its amphitheatre of mountains, sleeping calmly in the sunlight, with terraced islands.

Milan—a distant view of it—with the arch in the foreground, commenced by Napoleon to commemorate the victory at Marengo.

The Cathedral of Milan, next stands out in all its splendid proportions, a procession of priests entering the doors.

Lake of Como—a moonlight view of this fairy lake.

Verona—by twilight.

The tomb of Petrarch.

Next follow at first a distant view of *Venice*; then coming nearer, the church of St. Georgio, covering an island—the custom house—the Ducal Palace, and Bridge of sighs, connecting it with the Prison. The gondolas are seen plying in every direction, and a grand Regatta closes the Venetian scenes.

Bologna, and "Genoa the Superb" are shown on the canvass, and the section closes with a night storm on the Mediterranean.

We have said thus much concerning the Panorama of Italy, because, out of pure, disinterested, regard for our readers, we want them all to go and see it. Our word for it, no one will go away disappointed. Not every one can go to classic Italy and view these scenes in person, and the opportunity to see them as they are here presented will not last long.

Catherine Hayes Coming!

We are happy to be able to announce to the citizens of Milwaukee that Miss Catherine Hayes, the far famed "Swan of Erin," will visit Milwaukee next week, giving her first Concert at Gardiner's Hall on Monday evening. Her Agent, Mr. Rosenberg, is in town now, making the preliminary arrangements.

Miss Hayes has met with unbounded success everywhere throughout our country, and in the Canadas. At Detroit, last week, the good people were quite carried away with their enthusiasm. She sings at Chicago this week, and comes next to this place, where she will be greeted by our music loving public with overflowing houses.

Dogs.

Editors, Sentinel:

Will you call the attention of the city fathers to the existence of a most intolerable nuisance in our midst? I refer to the two thousand dogs prowling about our streets by day, and "making night hideous with their howls." It is impossible for a person to sleep, so great is the clamour kept up during the night and during the hot weather. It will be dangerous to allow so many animals to run at large unmuzzled—In Chicago, no dogs are allowed to run at large, unless properly muzzled, and while there a few days since, I was informed that a great slaughter had taken place among these animals—so much so that it is now a rare thing to see a dog in the streets. J.

Oshkosh Democrat.—Our merchants who are looking out for papers in which to advertise their wares, are invited to read the advertisement of Messrs. Burnside & Co, in our paper to-day.—Their paper circulates very largely through the north.

Sale at the Milwaukee House.—H. S. Sherman sells this morning the large stock of furniture of every kind at the Milwaukee House. The sale is a very extensive one, and a large attendance and spirited competition is expected.

Supervisors.—The Board of Supervisors met yesterday at the Court House. No business beyond the ordinary action upon claims, &c., was done. They will probably be in session a couple of days longer.

For Buffalo.—The *Globe*, Capt. Pratt, a fine and fast boat, in good order, and well officered, goes down on Wednesday night. Enquire of H. K. Jerome, at the steamboat office.

Real Estate, &c., for Sale.—See Wall's advertisements of the sale of Water lots, &c., on the Canal.

A new Rain Storm.—Mr. Neiman, in the 4th ward has put in operation a sprinkler of a new style, which lays the dust handsomely for our friends on the west side.

☞ Those interested will please take note of the cards of Messrs. Griffith & Decker, and P. W. Gallaudet, of New York City, in our advertising columns.

Steamboat Politics.—We published the other day a paragraph from a letter written by a correspondent of the Detroit *Advertiser* on Lake Erie, in which he made mention of a vote taken on board the *Lady Elgin*, which showed the Whigs to be largely in the majority. We did not clip the paragraph to show the vote, but for other items contained therein. But the *Morning News* is in a state of great agitation about the *vote*, and launches forth one of its characteristic paragraphs, abusive of the whigs, saying that:—

While these perfumed gentlemen are travelling the Lakes, and refrigerating at fashionable watering places for the benefit of their delicate health, the democracy of the country stay at home and may be found with their coats off and the sweat of honest labor upon their brows.

Whether or not the *News* will make any great sum by such absurd pandering to a possible jealousy of the poor *vs.* the rich, is an open question. We have our doubts about it. The *News* also informs us that the Whigs will have plenty of travelling after the 4th of March next. Very probably; they will travel towards the White House about that time, while their opponents will have been long used to the fodder of the Salt meadows, at the head of that memorable river, where the old Fogies have gone.

Singular Phenomenon.—Saturday, for several hours, the air was literally filled with "numbers innumerable" of the dragon fly, or "devil's darning needle." Their course was from the east to the south west. Who can afford an explanation?—*Morning News.*

Anybody. It is the freesoil democrats, going south, "by way of the lakes." We don't charge anything for the explanation.

Granite Democracy.—The Madison *Argus and Democrat* says the "democracy of Gen'l. Pierce is of granite, enduring as the everlasting hells of his native state." We had heretofore supposed that democracy was progressive and that it was only such politicians as the Editor of the *Wisconsin* that made *favorable* allusions to the principles of Jefferson.

Railroad Celebration.—The celebration of the completion of the Southern Michigan Railroad comes off at Chicago to-morrow. We are requested by the agent of the line, to say that the *Baltic* will leave here at 8 A. M., and arrive in time for visitors from this city to participate in the festivities.

Knows all about it.—As soon as it was known that Fillmore's friends really intened to go for Webster, the Jones wing of the whig party from the South, caved and nominated Scott.—*Wisconsin.*

Was there ever anything, of events uncertain in the view or ordinary mortals, which the *Wisconsin* did not understand at a glance?

Janesville 4th of July.—The Janesville people have determined to have a celebration after all. A. D. Smith, Esq., of this city will deliver the oration.

New York, June 17.

The Maine Liquor Law has just been lost in the House by a vote of 114 to 185.

RAMBLES IN THE INTERIOR.

Correspondence of the Sentinel.
On the Lemonwier River, June 3, 1852.

Messrs. Editors:

I find it difficult to keep you informed of my movements very promptly, on account of the scarcity of Post Offices, and of Mail carriers, in this part of the State. My letter of Monday must lie at Montello until Friday, and will not reach you until it is a week old or more. My two last are yet in my possession, to be mailed with this, to-day, at "Seven Mile Creek," which I am informed is the name of a Post Office, five miles from here, and where they may remain a week before they are started on their *long* journey to Milwaukee. How could you exist with such a state of things—you who complain publicly if the daily supply of mail matter is delayed a few hours after the stipulated time? Due allowance is to be made for the sparseness of the population here, and for the recent date of their settlement; but it seems quite proper that greater facilities for the transmission of intelligence, should be extended, without delay, to this part of the State.—Letters and Newspapers are great sources of enjoyment now-a-days, and those who are habitually deprived of them, soon become ignorant and perhaps depraved.

From the Dells we followed up the west side of the Wisconsin river to the Lemonwier, and then three miles up that fine stream to the first of the four mills. Two miles above the Dells we stopped to explore a remarkable head-land, known as McEver's Rock—a mass of sandstone more than two hundred feet in height. From the craggy summit you have a fine view of the adjacent country, embracing the course of the river, and winding about among the hills studded with beautiful islands until it disappears in the narrow gorge, called the Dells.

We saw the first Pine tree on the banks of Fox river, but no other pine was seen until we reached the Wisconsin. Scattered trees were seen during our ride yesterday, but we have scarcely yet entered upon the district of pine lumber, or the "pineries," properly so called. The Southern boundaries of the "region of pines" may be traced across our State, about as follows:—From Lake Michigan, a little south of Sheboygan, trace an irregular line by the north end of Lake Winnebago—thence crossing Wolf river near the mouth of the Waupaca, and the Wisconsin in Township 21; from this point the line must make a sudden bend to the south so as to embrace the upper portions of the Yellow, Lemonwier, Baraboo and Pine rivers; thence across the Kickapoo, and parallel with the Mississippi (about 30 miles from it) to the St. Croix. It is not, of course, pretended that this is exactly right, but it is believed to be very nearly so. I. A. L.

La Crosse, June 11.

Messrs. Editors:—

If you have published the half dozen scrawls have sent you, perhaps the readers of the *Sentinel* will not regret the attack of Fever and Ague that caused the suspension of further inflictions, nor rejoice with me that the skill of Dr. S. C. Johnson of this place has put an effectual veto upon it whereby the said infliction is likely to be resumed. I cannot now write out for you the important information collected each day—the journey up the Lemonwier, across the great dividing ridge, down the beautiful valley of the La Crosse, the steamboat ride to St. Paul, the delightful drive of 10 miles over the handsomest and best country I ever saw, to the far famed Falls of St. Anthony; and the return to this place, with all their incidents, and interruptions by the shakes of the ague, must be passed over with a single sentence, rather than be made the subjects of separate letters. This place is improving with wonderful rapidity, and reminds me very forcibly, in many respects, of Milwaukee when I first set my stake there, in 1836. There is the same activity, the same array of new unpainted houses, the lumber for which was but a short time since growing in its native pineries. The public houses overflowing, shanties springing up in every direction, movers with their families encamped in the vicinity—altogether prevents quite an exciting and novel scene.

Through the polite attentions of numerous friends and acquaintances (among them his Excellency, the Lieut. Governor, and Hon. Judge Gale) every want was provided for; and Mr. Crossett of the New England House well deserves the patronage he is receiving, as a reward for his untiring efforts for the comfort of those who visit La Crosse.

Much interest is felt here in regard to a railroad connection with Milwaukee, and the citizens are not without hope that our favorite Mississippi road may be diverted from the routes at present proposed, to this place. You will of course see the animated discussion going on in the papers of this place and Prairie du Chien on this subject.—Unfortunately I could not gratify their very natural desire to know the results of my explorations with the Mountain Barometer, for the observations must be compared with those made at home, before any useful results can be obtained. Besides this, a *shake* prevented my visiting the gap that is said to exist in the great ridge between the Lemonwier and the La Crosse—a circumstance I regretted very much; for without such a gap the passage of this ridge will be quite an expensive business. Upon my return I shall be able to construct a profile of the country from Milwaukee to Prairie La Crosse, showing approximately the grades necessary in the construction of a railroad. On my way home I hope to be able to collect the data necessary for a similar profile through the Southern Counties from the Mississippi to Janesville on Rock river.

I am fully convinced, and have no hesitation in saying that La Crosse is destined to become a place of considerable importance within a very short time. A large scope of country around will concentrate its commercial business here, including Black river and La Crosse Valleys, and even a portion of Bad Axe county. The daily arrival of the fine steamboats of the Upper Mississippi affords great facilities for doing business at this point; and these steamboats are of an entirely different class and are managed upon entirely different principles from those about which we hear so much on the rivers below. There is none of the reckless management, none of the drinking and gambling so common below. You feel at home, among your own folks, and can retire without dreams of snags, and sawyers and bursted boilers. The *Nominee*, Capt. Smith, is the favorite boat—or as a politician would say "the people's boat." She runs with the regularity of clockwork, and her excellent appointments, the polite and gentlemanlike air and conduct of the officers, and the excellent fare always provided, as we found upon trial, shows that her popularity is fairly deserved. Springville, Bad Ax Co. June 12th, 1852.

To form some correct idea of the immediate valley of the Mississippi river we drove down along the east bank, at the foot of the bluffs, for twelve miles, to Warner's Landing, and regretted very much that we could not continue this course to the mouth of the Bad Ax, where the last battle of the "Sauk war" was fought and won. We were constantly hemmed in on our right by the river, and on our left by the bluffs, rising at first with a slope or *talus* of sandstone and then by a perpendicular escarpment of "lower magnesian limestone." They have an elevation above the water of from three to five hundred feet and continue with but slight interruptions for hundreds of miles along this Great River. In these rocks we often find caves into which one may penetrate a great distance. In one of them we found human bodies, and some Indian hieroglyphics, which may possibly have been a record of the noble deeds of the person whose remains were thus deposited. At another place are the letters and figures "T. N. G. 1818"—possibly made by some person connected with Pike's Expedition, which, I think, ascended the Mississippi in that year. His Journal in the library of the Young Men's Association may throw some light on this point.

The little valleys or hollows that break through these cliffs are called by the French *coulies*, and they are of frequent occurrence, though seldom large enough to afford any "bottom land" or make room for a farm. They are usually narrow, and reach but a short distance back from the river. In cases of sudden heavy rains large bodies of water rush down the coulies with great force carrying away much of the soil, and even stones of considerable size.

The river is divided by numerous low, wooded islands into a number of distinct channels called sloughs; it is said that there is no place on the Upper Mississippi (except at Lake Pepin) destitute of islands, or where a person can see across the whole body of the river. These channels, with the islands, usually occupy the whole space from the foot of the bluff, on the opposite sides. Waubesha Prairie, Prairie La Crosse, and Prairie du Chien, are about the only exceptions to this rule. Hence good town sites along the river are rare, rendering the few that do exist, the more valuable. The river has been unusually high this spring, estimated to be about eighteen feet above the lowest water. But the highest flood known is said to have been in 1826 when it was eight feet higher than this year making the total rise no less than twenty-six feet along this part of the river. It is now falling rapidly.

The Mississippi even at this great distance from its mouth, and above nearly all its principal branches is truly a magnificent river: and all the praises so profusely lavished upon it by travelers and tourists are richly deserved. In scenic beauty it is not surpassed by the Hudson, and that may be considered as saying a great deal for our noble river. This upper valley is destined ere long to sustain a very dense population, exceeding any portion of the river below; the emigration to it is but just commenced, and under many difficulties that are fast being removed. The completion of our Rail Road will at once open this whole region to the foreign emigration now flowing our shores, and it will not fail to seek a resting place here.

This little village expects soon to be adopted as the county seat of this fine county—one of the finest ones on the Mississippi. The question lies between it and Viroqua. I. A. L.

Doings of the Whig National Convention.

Baltimore, June 16th, '52.

It is understood that Scott still refuses to commit himself previous to the nomination, although strongly urged to do so by a delegation of 90 members from the north, headed by Gen. Granger of Onondago county, N. Y.

The committee on the nomination for permanent officers have decided as follows:

For President, John G. Chapman of Md., 17; John M. Clayton of Del, 13; Blank 1.

Mr. Chapman is a thorough-going uncompromising Fillmore man, and will be unanimously recommended to the convention this evening.

The following is the most important resolution on the platform, and which has been accepted by Webster's friends:

Resolved, That the series of measures known as the Compromise, including the Fugitive Slave Law, are received and acquiesced in by the whig party of the United States, as a settlement in principle and substance—a final settlement—of the dangerous and exciting subjects which they embrace, and so far as the Fugitive Slave Law is concerned, we will maintain the same and insist on its strict enforcement until time and experience shall demonstrate the necessity of further legislation against evasion and abuse, but not impairing its present efficiency, and we deprecate all further agitation of the Slavery question as dangerous to our peace, and we will discountenance all efforts at the renewal or continuance of such agitation, in Congress or out of it, whenever, wherever, or however the attempt may be made, and will maintain this series of measures as a policy essential to the nationality of the Whig party and the integrity of the Union.

The vote of the committee on credentials in the case of Mr. Beckman stood 18 to 13.

The others are likely to follow suit. The question is not who are entitled to seats, but for whom will the contesting delegates vote, and as the votes in committee are controlled by the Webster and Fillmore States, the Scott delegates will be ruled out.

A minority report will be made and the whole subject come before the convention.

The temper of the convention is as moderate as could be expected.

Scott has written no letter as reported and will write none unless nominated.

THE OPENING.

Baltimore, June 17—10½ o'clock.

The Convention was called to order at 12 o'clock by President Chapman. Prayer was then offered up by Rev. Dr. Atkinson. The room is excessively hot. The galleries are crowded with ladies. The north and south ends of the hall are filled with at least 3000 spectators. Mr. Cabell of Florida, submitted a resolution that the rules of the House of Representatives be adopted by the Convention.

The President announced that similar resolutions offered by a gentleman of Ohio yesterday, were on the table, the present could only be received as a substitute for the original Resolution; the substitute was then debated by several members, when it was laid on the table, to allow Mr. Watts, Chairman of the Committee on credentials to make a partial report, and asked said Committee to sit during the session of the convention, their request was granted, and the committee accordingly retired.

The resolution on rules was again taken up, when Mr. Botts of Virginia submitted a resolution as a substitute for the whole. The substitute favors the adoption of the rules of the House of Representatives, as far as their application is necessary, and that each State be allowed as many votes on all the questions before the Convention as they would be entitled to in the House of Representatives, and the Senate of the United States.

Mr. Botts' substitute was then adopted. After the vote was taken the President urged upon the members the importance of acting harmoniously, and that they would indulge the spirit of concession as far as possible. He hopes that no applause would be given upon any vote until after the adjournment of the Convention. The address was well received and quiet being restored.

Mr. Duncan of La., submitted a preamble and resolution in favor of the appointment of a committee of one from each State to draft a series of resolutions for a platform for the government of the Whigs of the Union, and also, that said platform be adopted by the Convention previous to any nomination being made.

Mr. Van Trunk, of Ohio, opposed the adoption of any resolution until the committee on credentials had made their report. How could the Convention know who was entitled to vote until the said committee make their report? He spoke warmly and concluded by moving to lay Mr. Duncan's resolution on the table until the report of the committee had been received and adopted.

Mr. Duncan said he only asked for the passage of the Resolution, as the committee need not be appointed until the report on credentials had been made and adopted—he wished not to forestall the action of the Convention, but only desired that its members should show their hands. As a Southern man, he wanted to know where he was and with whom he was associating.

Mr. Duncan having concluded, Mr. Ashmun of Mass., rose and said that he thought it imprudent to press the passage of the resolution at this time, and he hoped that the Convention would adjourn to give time to the Committee on credentials to report.

A motion to adjourn till 5 o'clock was then made, which was advocated by Mr. Morgan, of Maryland, and Mudd of California. The vote being taken the Convention refused to adjourn.—There will be a large majority from present appearances in its favor.

The south have a decided advantage, and there is no doubt the committee will recommend the platform already published, embracing the fugitive law—the compromise acts, &c. This is rather considered as against Scott, but his friends say they will step up to the platform boldly.

The convention will soon adjourn till after dinner, and it is thought not likely that any nominations will be made before Saturday next.

The previous question was demanded and sustained, when a vote by states was asked for by Mr. Sherman of Ohio.

Another motion was made to adjourn, and lost.

The vote was then taken on the 1st resolution for the appointment of a committee of one from each state to report resolutions, and a platform of principles.—Adopted by ayes 159, nays 76.

The States of Maine, N. Y., R. I., Ind., Mich., Wis., Ohio, and Arkansas voted in the negative. Members from Ohio protested against the negative vote of that State, as did also several members from N. York. After the vote had been announced, other members from individual States changed their vote, but the final result did not affect the above decision to any extent.

Mr. Botts, of Va., moved a reconsideration of the vote and also to lay said motion on the table, which last motion was adopted.

One o'clock.

The committee on credentials have reported in favor of Mr. Beekman, from N. Y., and also for the Fillmore delegate from Vt.

THIRD DAY.

Baltimore, June 18, 9 A. M.

Everything this A. M. is at 6's and 7's. There was much caucussing and discussion last evening, and the debate in Convention to-day promises to be heated and protracted. A ballot may be taken this P. M., but it is very doubtful, as it is the opinion of many that the entire day will be spent in settling the preliminaries. The Committee on credentials will report in favor of the Fillmore delegates, and throw the Scott men overboard. Mr. Grinnell and Benedict have both been admitted. The Southern platform will not be adopted as easily as was supposed, and some exciting discussions may be expected to-day. The friends of Scott it is said will except it. They are earnestly at work in his favor, and talk with great confidence. Some of their assertions are that he will have 140 votes on the 1st ballot, and that on the 4th ballot at farthest, he will be the Whig nominee.

10 o'clock, A. M.

The Hall is crowded to overflowing and hundreds are still wending their way thither. The indications are that a very exciting debate will take place on the Platform and credentials; caucuses were kept up last evening until after midnight. The Southern Platform will undoubtedly be adopted, as at present there seems a disposition to harmonize and approve it. An enthusiastic meeting of the friends of Mr. Webster, was held at Carroll Hall last evening, which was addressed by Mr. Grinnell and others.

Mr. Grinnell in the course of his remarks predicted that Daniel Webster would receive the nomination on the 6th ballot. In Monument Square addresses were delivered by Messrs. Smith of Massachusetts, and Evarts of New York. Several other gentleman also addressed the meeting; it was enthusiastic throughout for Webster.

10½ o'clock, A. M.

Convention was called to order at 10 o'clock, by the President—Gen. John E. Chapman. Prayer was offered up. The Journal of yesterday's proceedings was read and approved. The President then announced the first business in order to be the Resolutions of Mr. Duncan, of La., as follows—with the amendment of Mr. Jessup, of Pa. That a committee of one member of each state represented in Convention be appointed, whose duty it shall be to draft Resolutions expressive of the sentiments of the Whigs of the Union on the great doctrine cherished by them—or otherwise a Platform of Principles to be maintained by the Whigs in the coming campaign—that the members of said committee be chosen by the delegation from each state—each state to appoint its own member, and the committee to appoint its own chairman—that the convention will not proceed to ballot till said committee shall have reported, and the Convention have taken final action on the report.

Mr. Jessup's amendment was as follows:

"And that in said committee each member be authorized to cast the number of votes to which such state is entitled in the Electoral College." The resolutions having been read, Mr. Jessup took the floor, and said that in order to show that he was favorable both to make a concession and compromise, he would withdraw his amendment.—The original resolution to appoint a Committee of one from each state to report resolutions embracing the whig platform was then adopted, and the resolutions as above submitted by Mr. Duncan was passed.

11 o'clock.

The following is the committee appointed by the Convention to draft and report a series of resolutions as a Platform:

Maine, Fessenden; New Hampshire, Edwards; Vermont, Coolidge; Massachusetts, Ashmun; Rhode Island, Harris; Connecticut, Hazard; New York, Dickinson; New Jersey, Dayton; Pennsylvania, Johnson; Deleware, Clayton; Maryland, Clarke; Virginia, Scott; North Carolina, Boyden; South Carolina, Bryan; Georgia, Dawson; Alabama, Langlen; Mississippi, Bradford; Louisiana, Duncan; Ohio, Harris; Kentucky, Brown; Tennessee, Zollicoffer; Indiana, Newsman; Illinois, Baker; Missouri, Chambers; Arkansas, Sager; Michigan, Pomeroy; Florida, Davis; Texas, Ash; Iowa, Bullard; Wisconsin, Spaulding; California, Stewart.

A member from Tennessee submitted to the convention the platform drawn up and agreed to by the Southern delegation, and moved that it be referred to the above committee. The motion was adopted.

A member from Illinois, as also one from Arkansas, submitted certain resolutions which were not read, but were referred to the Committee.

On motion, all the resolutions upon the question of the platform were ordered to be referred to the committee on the same.

Mr. Davis of Florida offered a resolution that this Convention will not support any nominee whose public acts now on record leave anything for explanation upon the Compromise measures.

Mr. Botts of Virginia, submitted as a substitute that the Convention pledge itself to the support of the nominee.

Mr. Davis, on leave, withdrew his resolution, as did also Mr. Botts.

The committee on resolutions obtained leave to set during the session of the Convention. Several members from different states submitted resolutions upon the platform, none of which were read, but were referred to the appropriate Committee.

Report of Committee on Credentials.—Mr. Watts of Va., Chairman of the committee on Credentials, submitted the report of said committee. A portion of the report allows a representation of 21 delegates from Washington city and seats upon the Platform. The Committee also report that Messrs. Grinnell, Benedict, Bantow and Bennett, are entitled to seats for the contested districts from New York.

Also that Mr. Hardenburgh and Smith be both admitted to seats from the 11th District, N. Y., with the understanding that only 1 vote be cast between them. Mr. Baxter was admitted from the contested seat from Vermont. All the members from the contested seats from New York who were admitted, are in favor of either Webster or Fillmore.

Mr. Clayton of Del., submitted a minority report, as did also several other members.

Mr. Cabell, of Florida, demanded the previous question upon the adoption of the majority report, which was seconded and the votes taken by States—yeas 164, nays 117. The question was then put and the report adopted by a decisive vote. Mr. Botts, of Virginia moved that the convention adjourn till 6 o'clock.

Another member moved that the Convention proceed at once with the ballotings for President. The last motion was withdrawn, and the motion to adjourn was taken by States, and decided in the negative. Yeas 132, nays 187. A motion to adjourn till 5 o'clock was carried, and at half-past 12 o'clock the Convention adjourned.

EVENING.

Convention called to order at 5 o'clock, Mr Ashmun, Chairman of Committee, presented the platform, as altered and arranged by the Committee with great unanimity. A discussion ensued between Messrs. Archer, Choate, Botts, Duncan and others. The previous question was moved.

Mr. Jones then made an eloquent appeal to the North to stand by the South on the compromise, and lay aside all prejudices

Previous question sustained—Maine, yeas 4, nays 4; N. Hampshire, yeas 5; Vermont, yeas 5; Massachusetts, yeas 13; R. Island, yeas 4; Conn. yeas 4, nays 1, (1 not voting) N. York, nays 22, yeas 11; N. Dust on the Cars.—The superiority of sodding Railroad tracks over other methods, to prevent annoyance from dust, is fully tested by the Michigan Central R. R. During the dusty days of the past week, travellers on this road have experienced much relief when passing those portions of the track already sodded. We learn it is the intention of Mr. Brooks to complete this work over the sandy portions of the road, at an early day.—*Chicago Journal.*

THE MARKETS.

Office of the Daily Sentinel, Milwaukee, June 22, 1852.

Receipts by Railroad, June 21—515 bus wheat, 52 do oats, 65 bbls flour, 18 sacks 5 bdls wool, 4 bbls eggs, &c.

Ditto for the week past foot up about 3500 bus wheat, 350 do oats, 200 bbls flour, 22 bales wool, 31 do broom corn, &c.

Shipments for the week foot up as follows:—4000 bbls flour, 22,505 bus oats, 2000 do barley, 21,276 do wheat, 10½ tons ashes, 1200 lbs wool, 75 bbls 10,000 lbs pork and lard, 10 tons, lead, &c.

Passengers landed during the week—2600.

Owing to the pressure of other engagements we have not been able to make up a full market summary, and will be obliged to dismiss it in a few words. We are glad to be able to make them words of encouragement. Although the last foreign steamer brings no news of a rise, yet markets are firm, and with an advancing tendency on this side, and better offers are made for produce.

Wheat comes in quite freely, and buyers are oftener paying rates for best Winter at 65c and upwards than last week.

No change in flour, shipments free.

Rye steady at 40@42.

Barley, better demand and slightly improved rates.

Oats—sales large and prices well sustained at 22½@23.

Wool—receipts amount to about 12000 lbs. We note an advance amounting to an average of full 1½c ℔ lb over last week for the better qualities. There is more competition, and we think prices will go somewhat higher; yet we can give very little reason for the opinion, except that a rise, to a small extent, is noticeable at all of the markets. We cannot advise farmers to hold on. Prices range from 20@32c, the latter rate for a few extra lots.

Chicago, June 19.—Wheat—2072 bush from railroad and teams at 35@42c for spring, according to quality; also 6009 bu spring, on board at 46c

Corn—67 bush, in small lots, at 33@34c ℔ bu of 60 lbs; 4900 bu good river at 36½c afloat.

Oats—4250 bush from railroad and teams at 22c; also 6500 bu afloat at 22c; and 10,000 bu on board at 25c.

* Wool—Receipts increasing, and prices advanced above any previous quotations. No sales since our last at less than 22c, and some at 32c.

Provisions without change, and little doing. Groceries active and firm. Potatoes, old crop, $1 12½ by the quantity. Butter, heavy at 9c. Eggs scarce, and in demand at 9 cents.

Freights—Vessels scarce. Schr. Mechanic takes corn to Buffalo at 9c; Prop. Scicta on the market, and offered 7c for oats.—[Tribune.

FOREIGN MARKETS.

Liverpool, June 4.

Corn Market.—The market for all descriptions of grain and flour has been dull these few days, partly attributable to the extremely favorable weather, and partly to the holidays and other causes. At Friday's market, American Wheat suffered a decline of 1d. ℔ 70 lbs., and American Flour changed hands at 20s 6d for best quality ex-warehouse. Indian Corn has likewise experienced a falling off to the extent of 6d@1s ℔ qr. The arrivals at Liverpool from the United States, from 1st to 3d June, inclusive, were 3,355 qrs Wheat, and 5,547 bbls Flour.

Provision Market.—Beef continues active at the advance, with fair amount of sales and small stock in market. Bacon has improved 1s, and remains in active request. Little done in Pork—market bare, and tendency of prices upwards. Lard held firmly at an advance of 6d. No Cheese in market.

Money Market.—The English funds remain firm, Consols above par. The new three-and-quarter per cents are in favor as an investment from the advantages they offer of a guaranteed rate of interest for twenty years commencing in 1851. The buoyancy of prices for this stock is now established.

The knowledge that there are orders to buy for investment whenever the market recedes, has kept up the value of Government Securities. The Bank of England has not yet intimated that it will lend on the security of Stock and Exchequer Bills on lower terms than heretofore; but it is considered that few persons will be content in the present abundance of money to pay more than 1½ per cent. The Bank returns show a further increase in bullion.

On Wednesday Consols opened at previous quotations, and closed at 100½@100⅝, and 100⅞ for 16th July. Thursday opened at opening prices of Wednesday, and closed at the same price. Friday closed at 100⅞ for account.

American Stocks.—American Securities continue in good demand, and considerable transactions have taken place during the past week in Erie Railway Convertibles, and other Railway Stocks. City of Boston 5 ℔ cent Bonds have also been in demand, with enquiry for Montreal 6's. The inferior class of Shares are not sought. Quotations are:—U. S. 6 ℔ cent Bonds, 1862, 104@105; do 6 ℔ cent do, 1868, 109½@110½; New York State 5 ℔ cents, '58–'60, 95@96; Boston City 5 ℔ cents, '58–'62, 93½@94½; New York and Erie 7 ℔ cents (first Mortgage), '68–'69, 106½@107½; do do 7 ℔ cents (second Mortgage), '59, 98@100; do do 7 ℔ cent Convertibles, '62, 90½@90¾; Philadelphia and Reading Railroad 6 ℔ cent Mortgage Bonds, '60, 81@82.

Freights.—[From Train & Co's Circular per Europa.]—Very fair arrival of American ships since our last. Rates are firm at 12s 6d@15s for iron to New York and Philadelphia. To Boston, an excess of tonnage has reduced rates lower than to any other Northern port. To all ports in the United States, passengers dull, at 20s a head, net to the ships.

Arrived at Buffalo, June 16th and 17th.

Propeller California, Connoly, Milwaukee—1326 bbls flour P S Marsh; 383 do M S Hawley; 250 do J & C Hitchcock; 135 do Oobb & co; 10 do 156 csks ashes 30 rolls leather Ellis, Petrie & co; 201 bbls pork J S Buell; 57 csks ashes Buckinghams & Guthrie; 28 do owner; 4 bales wool Schollekopf; 6 bxs axes 1 bdl Sternberg & co.

DR. STORM'S CELEBRATED SCOTCH COUGH CANDY.

Thousands in the United States who have used this delightful medicine, have testified to its efficacy as a remedy for Pulmonary Affections.

Eight Thousand Five Hundred packages of this justly celebrated compound, were sold in St. Louis, from December 1st to February 28th; and from the testimony of the druggists of this city, the public may reasonably conclude that the inventor has been guided by the highest principles of medical science.

The Candy is neatly put up with directions for use. A handsome engraving of the Scottish Coat of Arms, and the written signature of Hamilton Wade, (proprietor,) is on the wrapper of each roll and package.

Price One Dime per Roll; 3 Rolls for 25 cents; or $1 per dozen. may21tn

DR. HOOFLAND'S GERMAN BITTERS.

This celebrated medicine is one of the very best in the country, and its good qualities only need to be known, to give it precedence over all others now in use. We have seen its good effects lately, after the total failure of many others. This is saying more than we can for any other medicine within our knowledge, and we feel it a duty to recommend the Bitters to the notice of our friends. The genuine is prepared by Dr. C. M. Jackson, Phila.

Mr S. Johnson Jr., Milwaukee.

Sir:—For more than six years I have been severely afflicted with accumulation of dandruff upon the head, and have frequently applied to the most celebrated of your profession for relief; they have tried upon me a variety of specifics, but with no success, and I feared that it was incurable. I apprehended some scrofulous affection, so firm was the accumulation. About six weeks since I determined to use your preparation, known as the Chemical Hair Invigorator, but I expected no other advantage from the use of it than that of the perfumery or oil; but, much to my astonishment and gratification, I find my head completely free from dandruff, and my hair soft and healthy, an effect that has followed from the use of no other remedy. I use the preparation now but once a week, and find that my hair needs no other dressing. I believe I am entirely cured. I am so delighted at my good fortune in thus getting rid of what has been a source of serious annoyance, that I have determined to send you this evidence of the effects, and shall be happy at any time to bear testimony to the excellence and efficacy of your Chemical Hair Invigorator.

Yours, respectfully,

DAILY SENTINEL.

From our Extras of Yesterday

Scott Nominated on 53d Ballot.

Baltimore, June 21.

The Webster and Fillmore men have made arrangements that they think will result in the nomination of Webster or Fillmore on the 2nd or 3rd Ballot.

The Webster men have promised from the South that if Webster can show 60 votes they will rally on him. Should he fall short of this number the Webster men will go over to Fillmore.

The Michigan men will go for Webster as soon as he receives 40 Southern votes; also a portion of the Indiana delegation.

The Scott men also seem to be more sanguine than ever at the prospect of the break of the Fillmore forces for Webster.

They anticipate a gain sufficient to elect Scott. Bets are making in one parlor at the rate of $1000 to $3000 on Scott, while in the next parlor $1000 to $5000 on Webster or Fillmore.

47th Ballot—Scott 135, Fillmore 123, Webster 29.
48th Ballot—Scott 137, Fillmore 124, Webster 30.

Scott gains one from Webster in N. Y.—Webster gained 2 in Connecticut—Scott gained 2 from Fillmore in Missouri.

49th Ballot—Scott 139, Fillmore 122, Webster 30
50th Ballot—Scott 142, Fillmore 122, Webster 28.
52d ballot—Scott 142, Fillmore 120, Webster 29
53d ballot—Scott 148, Fillmore 118, Webster 26

We received last night at 9 o'clock, the announcement that

WILLIAM A. GRAHAM,

of North Carolina, was nominated for Vice President. No ballots given.

BY HOTCHKISS' LINE.

Madison, June 21.

The Supreme Court met this morning and adjourned. They have gone through with the entire docket. Nothing of any account ready for trial. The cases with the exception of the Mandamus Causes against the Governor have been continued.

Riot At Dunkirk

Buffalo, June 15.

Last evening about 2,000 of the inhabitants of Dunkirk rose en masse, and attacked the house of Henry Tiles, foreman in the N. Y. and Erie Railroad machine shop, and having captured him, burnt his house to the ground.

Tiles having accused another man named Isaac Smith, in the same establishment, of having improper intercourse with his wife, with a view of extorting money from him, and on the false oath of Tiles' wife, Smith was arrested, tried and acquitted.

Smith took it so much to heart, that he committed suicide yesterday. Tiles' wife then confessed her perjury.

On the facts getting wind, the inhabitants rose as above. Tiles is in their custody, and serious disturbances are apprehended.

Concord, N. H. June 16.

The democratic members of the State Legislature in caucus last evening, determined by a vote of 86 to 63 to postpone until the November session, the choice of U. S. Senator in place of Jno. P. Hale, whose term expires on March 4th next.

The bill to repeal the act for the further protection of personal liberty was discussed at length in the House yesterday, and was ordered to a third reading by a vote of 157 to 115—13 Whigs voting for and 4 Democrats against the repeal.

The Liquor Bill was also reported yesterday P. M. without amendment.

The special committee which had it under consideration reported a resolution submitting its acceptance to the people by ballot at the Fall election.

A joint resolution was reported providing that the consideration of the bill should be postponed till the fall session. A hot debate preceded the motion to take the vote by yeas and nays on the first resolution. On its being taken 144 voted against to 124 in favor of it. The majority in opposition to referring the bill to the people, prior to Legislative action, was 8. Should it pass, it is almost certain to contain a clause referring it to the people.

Charleston, June 17.

A Democratic ratification meeting was held last evening, but it was rather a dull affair. A President and 40 Vice were nominated but of the latter only 4 could be found. Addresses &c., were made.

Discovery of Dead Bodies at Cincinnati.

Cincinnati, June 16.

Great excitement exists in the upper part of this city, caused by the discovery of 12 human bodies in a shanty on the road at Walnut Hills, which purported to be a chemical laboratory.—The owner, Dr. Davis, has been arrested for trial. It is supposed his business has been arranging skeletons for Colleges, and that the dead bodies had been procured for that purpose.

Assault by a Member of Congress.

Philadelphia, Wednesday, June 16.

Fayette McMullen, a Member of Congress from Virginia, has been held to bail in the sum of $1,000 to answer an assault upon Mr. Fittsworth last evening on board the Steamer *Trenton*, coming from Tacony.—Fittsworth had occupied McMullen's seat in the cars during his absence, by placing his lady in it; McMullen threatened to take it by force, but Fittsworth vacated it at the desire of the lady, calling the Congressman no gentleman. They afterwards met on the boat, when Fittsworth refusing to recall the epithet, McMullen broke his cane over his head.

Foreign Items.

From the New York Evening Post.

American books are now sold in England at the cost price of importation, with a small addition for commissions.

"The Reveries of a Bachelor," by Ik Marvel, is republished in England.

Edward Foss has published a book called "The Judges of England, and the Courts of Westminster."

An interesting engraving of Westminster School represents the whole of the interior wall as covered with the names of the scholars for a great many years past. Dryden, Locke, Cowley, Lord Mansfield, Warren Hastings, Chancellor Finch, Sir Christopher Wren, Cowper, Horne Tooke, Gibbon, Sir Francis Burdett, Lord John Russel, are but a few of those who received their early education at this school. Some of the autographs of the scholars, remained on the wall, are 300 years old.

Rock salt is found in Cheshire at the depth of from fifteen to twenty yards. The beds are from three to one hundred and thirty feet thick separated from each other by clay or flags stones. The color is reddish, and the material is so hard as to require the aid of gunpowder to loosen it.

The violent slamming of a door will, it is said, kill young canary birds in their shell.

The marriage of Presigny with Mddle. de la Moskowa has been postponed for six weeks, in consequence of the death of her brother.

A daughter of the Prince Jerome Bonaparte is a nun in the convent Des Oisseaux. She recently invited the Arab chiefs to visit the convent, and they were very much pleased with their reception.

Money appears to be very plenty in Paris, for purchase of pictures. The sale of the gallery of the Compte de Morony, was as well attended as that of the late Marshal Sault. The interior of a cottage, by Ostade brought $5,000, and a promenade, by Wouvermans, was purchased by Louis Napoleon for £4,300.

The Catholic priests in Ireland are preaching in the most earnest manner against emigration to America, and every argument is used to persuade the people not to abandon their own country.

At a recent meeting of the society of Arts, a paper was read by Mr. Herdsman, on the fact that the perspective appearance of objects in nature was different from the representations of the same objects by right-lined perspective. We presume this is one of the consequences of the stereoscopic discoveries.

Two thirds of the case of mania in England, particularly among the upper classes, are found to arise from distorted views on religious subjects.

A Baptis missionary named Judd is said to be working an entire revolution in the morals of the people of Port-au-Prince. Quite time.

EMIGRATION.—Upon the arrival of every steamer from below, our city swarms with emigrants destined for a prairie home in the interior, where by industry they will be sure to thrive. A large proportion of them now coming, appear to be Hollanders and come and go in swarms, the queer looking, fat, hardy and happy juveniles greatly outnumbering the same sort of a larger growth, most of these families bring ample means with them, wherewith to purchase a new home in the West, and once settled, all hands commence to improve it. They are a working race—bound to prosper and generally become among the best of citizens particularly the second generation.

We are pleased to learn in this connection that the Liverpool and Boston Packet Line, are about establishing an emigrant office here, and that their arrangements are such as to be enabled to *ticket through direct* from Liverpool to Chicago and Milwaukee, thus protecting emigrants from the frauds so frequently practised upon them.—*Chicago Jour.*

From the foot of North Moore St., North River, the new and splendid double-engine Steamship

CITY OF PITTSBURGH,

2,400 tuns burden, WM. C. STOTTSBURY, Commander, will positively sail for San Francisco, touching at Rio, Valparaiso, and Panama, on SATURDAY, July 10, at 3 o'clock, P. M. This steamer has superior accommodations, is well ventilated, and otherwise fitted for the trade. It is confidently expected that she will make the passage in the shortest time on record, thus affording a rare chance to families and others, who wish to avoid the crowded ships via the Isthmus, as only a limited number of passengers will be taken. A small quantity of freight will also be taken. Arrangements have been made with the owners of the new steamship UNCLE SAM, 1,900 tuns, now building, to make a through connection, and she will soon take her place in the line.

For freight or passage apply to

Graefenberg Medicines
HAVE YOU USED THEM?

AS popular medicines, prepared carefully and scientifically, and adapted to the wants of the American public, they have no superiors. They are emphatically what they are represented to be, *genuine*, and free from *Humbug*, intended as much to *cure* as to *sell*. When once used, they are universally relied upon, and no *Family* should be without these truly valuable aids to *Health*. In many instances the *regular faculty* recommend and use them, such is their force over the prejudices of those so generally opposed to the circulation of Popular Medicines. No *Family Physician*, in ordinary cases, is needed by those who own the *Graefenberg Manual of Health*, and strictly abide by its directions in the use of the medicines.

A word to the *wise* is sufficient, without the publication of certificates, which we have of the most flattering description always open for the inspection of the incredulous.

We will enumerate in conclusion the various preparations of this Company, which may be found in every town in the State and throughout the Union.

THE GRAEFENBERG SARSAPARILLA, is purely vegetable, *no big bottle humbug*, or pleasant drink, but *as it should be*, a *Medicine* of the greatest power in promoting an entire change in the system, by eradicating those impurities of the blood which are the seeds of almost incurable disease in man.

THE GRAEFENBERG DYSENTERY SYRUP.—Public approbation has stamped upon it the character of *perfect*. It has checked the ravages of *Cholera* in its last stages, and for bowel complaints it has no equals.

THE GRAEFENBERG VEGETABLE PILLS, are particularly valuable for the prevention and cure of *Fevers* in general. They act gently, naturally and surely and in connection with our *Health Bitters*, are a certain and speedy cure for the Fever and Ague. The *Bitters* have a wonderful effect in invigorating a debilitated system.

THE GRAEFENBERG GREEN MT. OINTMENT.—In reducing inflamation, healing burns, bruises, and all injuries to the body, we can confidently recommend this salve to all as being most efficacious. In the *Mineral Region* of our State its merits are universally appreciated.

THE GRAEFENBERG EYE LOTION—An unprecedented article, but one which meets with large sales in the West, and has been the humble means of relieving thousands from intolerable pain arising from injured or diseased eyes. Try it.

THE GRAEFENBERG UTERINE CATHOLICON.—This is perhaps the most valuable medicine of this Company, inasmuch as it reaches cases despaired of by the most scientific physicians. For Prolapsus Uteri, and all complaints incident to *Females*, it will be found a safe and speedy remedy. Let no *afflicted woman* be deterred by delicacy or prejudice from giving it a fair trial. Inquire of the agent for the pamphlet in relation to it.

THE GRAEFENBERG PILE OINTMENT, CHILD'S PANACEA, &c., are all invaluable remedies, directions for which and all the medicines are attached to each.

Graefenberg North-Western Agency, 23 Wisconsin Street, Milwaukee.

PATENT MEDICINES.

Entered according to Act of Congress, in the year 1851, by J. S. HOUGHTON, M. D., in the clerk's office of the District Court for the Eastern District of Pennsylvania.

Another Scientific Wonder!
DR. J. S. HOUGHTON'S
GREAT DYSPEPSIA CURER!

THE TRUE
DIGESTIVE FLUID,
OR
GASTRIC JUICE

PREPARED from Rennet, or the fourth Stomach of the Ox, after directions of Baron Liebig, the great Physiological Chemist, by J. S. Houghton, M. D., Philadelphia, Pa.

This is a truly wonderful remedy for Indigestion, Dyspepsia, Jaundice, Liver Complaint, Constipation, and Debility, Curing after Nature's own method, by Nature's own Agent, the Gastric Juice.

Half a teaspoonful of PEPSIN, infused in water will digest or dissolve, Five Pounds of Roast Beef in about two hours, out of the stomach.

PEPSIN is the chief element, or Great Digestive Principle of the Gastric Juice—the Solvent of the Food, the Purifying, Preserving and Stimulating Agent of the Stomach and Intestines. It is extracted from the Digestive Stomach of the Ox, thus forming an Artificial Digestive Fluid, precisely like the natural Gastric Juice in its Chemical powers, and furnishing a complete and perfect substitute for it. By the aid of this preparation the pains and evils of Indigestion and Dyspepsia are removed, just as they would be by a healthy Stomach. It is doing wonders for Dyspeptics, curing cases of Debility, Emaciation, Nervous Decline, and Dyspeptic Consumption, supposed to be on the verge of the grave. The Scientific Evidence upon which it is based, is in the highest degree Curious and Remarkable.

SCIENTIFIC EVIDENCE.

Baron Liebig in his celebrated work on Animal Chemistry, says: "An Artificial Digestive Fluid, analagous to the Gastric Juice, may be readily prepared from the mucous membrane of the stomach of the Calf, in which various articles of food, as meat and eggs, will be softened, changed, and digested, just in the same manner as they would be in the human stomach."

Dr. Pereira, in his famous treatise on "Food and Diet," published by Fowler & Wells, New York; page 35, states the same great fact, and describes the method of preparation. There are few higher authorities than Dr. Pereira.

Dr. Combe, in his valuable writings on the "Physiology of Digestion," observes that "a diminution of the due quantity of the Gastric Juice is a prominent and all prevailing cause of Dyspepsia;" and he states that "a distinguished professor of medicine in London, who was severely afflicted with this complaint, finding everything else to fail, had resource to the Gastric Juice, obtained from the stomachs of living animals, which proved completely successful."

Dr. Graham, author of the famous works on "Vegetable Diet," says: "It is a remarkable fact in physiology, that the stomachs of animals, macerated in water, impart to the fluid the property of dissolving various articles of food, and of effecting a kind of artificial digestion of them in no wise different from the natural digestive process."

Professor Dunglison, of the Jefferson College, Philadelphia, in his great work on Human Physiology, devotes more than fifty pages to an examination of this subject.—His experiments with Dr. Beaumont, on the Gastric Juice, obtained from the living human stomach and from animals, are well known. "In all cases," he says, "digestion occurred as perfectly in the artificial as in the natural digestions."

Dr. John W. Draper, Professor of Chemistry, in the Medical College of the University of New York, in his "Text Book of Chemistry," page 386, says, "It has been a question whether artificial digestion could be performed—but it is now universally admitted that it may be."

Dr. Carpenter's standard work on Physiology, which is in the library of every Physician, and is used as a Text-Book in all the Colleges, is full of evidence similar to the above, respecting the remarkable Digestive power of Pepsin, and the fact that it may be readily separated from the stomach of the calf or ox, and used for experiments in Artificial Digestion, or as a remedy for disease of the Stomach, and deficient secretion of Gastric Juice.

All modern works on Chemistry, Materia Medica, and Physiology, and all good Medical Dictionaries, describe the character and properties of PEPSIN, and state many interesting details respecting it.

The fact that an Artificial Digestive Fluid, or Gastric Juice, perfectly resembling the natural fluid, may be readily prepared, does not admit of question. The only wonder is, that it has not before been applied to the cure of Indigestion and Dyspepsia—so naturally does such a use suggest itself to the mind.

AS A DYSPEPSIA CURER.

Dr. HOUGHTON'S PEPSIN has produced the most marvellous effects, in curing cases of Debility, Emaciation, Nervous Decline, and Dyspeptic Consumption. It is impossible to give the details of cases in the limits of this advertisement; but authenticated certificates have been given of more than Two Hundred Remarkable Cures, in Philadelphia, New York, and Boston alone. These were nearly all desperate cases, and the cures were not only rapid and wonderful but permanent.

It is a great Nervous Antidote, and particularly useful for tendency to Billious disorder, Liver complaint, Fever and Ague, or badly treated Fever and Ague, and the evil effects of Quinine, Mercury, and other drugs upon the Digestive Organs, after a long sickness. Also, for excess in eating, and the too free use of ardent spirits. It almost reconciles Health with Intemperance.

OLD STOMACH COMPLAINTS.

There is no form of Old Stomach Complaints which it does not seem to reach and remove at once. No matter how bad they may be, it gives instant Relief! A single dose removes all the unpleasant symptoms; and it only needs to be repeated for a short time to make these good effects permanent. Purity of Blood and Vigor of Body follow at once. It is particularly excellent in case of Nausea, Vomiting, Cramps, Soreness of the pit of the stomach, distress after eating, low, cold state of the Blood, Heaviness, Lowness of Spirits, Despondency, Emaciation, Weakness, tendency to Insanity, Suicide, &c.

Dr. Houghton's PEPSIN is sold by nearly all the dealers in fine drugs and Popular Medicines, throughout the United States. It is prepared in Powder and in Fluid form—and in Prescription vials for the use of Physicians.

Private Circulars for the use Physicians, may be obtained of Dr. Houghton or his Agents, describing the whole process of preparation and giving the authorities upon which the claims of this new remedy are based. As it is not a Secret Remedy no objection can be raised against its use by Physicians in respectable standing and regular practice. Price One Dollar per bottle.

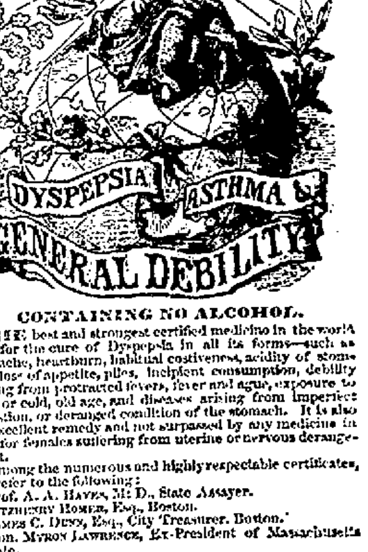

OBSERVE THIS.—Every bottle of the genuine PEPSIN bears the written signature of J. S. HOUGHTON, M. D., sole proprietor, Philadelphia, Pa. Copyright and Trade Mark secured.

Sold by all Druggists and Dealers in Medicine.

HOOFLAND'S CELEBRATED GERMAN

BITTERS,

Prepared by Doct. C. M. Jackson, AT THE GERMAN MEDICINE STORE, 120 Arch st., Philadelphia.

Their power over the above diseases is not excelled, if equalled by any other preparation in the United States, as the cures attest, in many cases after skillful physicians had failed.

These Bitters are worthy the attention of invalids. Possessing great virtues in the rectification of diseases of the Liver and lesser glands exercising the most searching powers in weakness and affections of the digestive organs, they are withal safe, certain and pleasant.

READ AND BE CONVINCED. [From the Boston Bee.]

The Editor said Dec 3d. "Dr. Hoofland's celebrated German Bitters, for the cure of Liver Complaint, Jaundice, Dyspepsia, Chronic or Nervous Debility, is deservedly one of the most popular medicines of the day. These Bitters have been used by thousands, and a friend at our elbow says he has himself received an effectual and permanent cure of Liver Complaint from the use of this remedy. We are convinced that, in the use of these Bitters, the patient constantly gains strength and vigor, a fact worthy of great consideration. They are pleasant in taste and smell, and can be used by persons with the most delicate stomachs with safety, under any circumstances. We are speaking from experience, and to the afflicted we advise their use." SCOTT'S WEEKLY.

One of the best literary papers published, said, August 25 "DR. HOOFLAND'S GERMAN BITTERS, manufactured by Dr. Jackson, are now recommended by some of the most prominent members of the faculty, as an article of much efficacy in cases of female weakness. As such is the case, we would advise all mothers to obtain a bottle, and thus save themselves much sickness. Persons of debilitated constitution will find these Bitters advantageous to health, as we know from experience the salutary effect they have upon weak systems.

The Daily Sun says —"It is one of the best medicines of the age for Jaundice and Liver Complaint."

Neal's Gazette says —"Dr. Hoofland's German Bitters we know to be an excellent article, fulfilling in every respect what is claimed for it by the advertiser."

The Evening Bulletin says — "The celebrated German Bitters are said to be an invaluable remedy for Jaundice, Dyspepsia, and Nervous Complaints."

The Daily News, July 24, says —"A Medicine"—We speak knowingly of Dr. Hoofland's celebrated German Bitters, when we say it is a blessing of this age, and in diseases of the biliary, digestive and nervous systems, it has not, we think, an equal. It is a vegetable preparation, and made without alcohol and to all invalids we should recommend it as worthy of their confidence."

The Dispatch says — "As a medicine for Liver Complaint, Jaundice, Nervous Debility, and Dyspepsia, it has been found invaluable, effecting cures, and thoroughly eradicating disease, when all other medicines have failed."

That this medicine will cure Liver Complaint and Dyspepsia, no one can doubt, after using it as directed. It acts specifically upon the stomach and liver—it is preferable to calomel in all bilious diseases—the effect is immediate. They can be administered to Females or Infants with safety and reliable benefit, at any time.

LOOK WELL TO THE MARKS OF THE GENUINE. They have the written signature of C. M. JACKSON upon the wrapper, and the name blown in the bottle, without which they are spurious.

For sale, wholesale and retail at THE GERMAN MEDICINE STORE, No 120 Arch street, one door below Sixth, Philadelphia, and by respectable dealers generally throughout the country and also for sale by S. JOHNSON, JR., Druggist, Milwaukee, Wisconsin. Jan7

The certificates are copied verbatim. The proprietor of the Genuine Perry Davis' Pain Killer will prosecute any person engaged in selling this spurious article, and is determined to protect himself and the public from this infamous fraud.
